## 120kW Photovoltaic Energy Storage Container on Sale

Amazon's vice president of Search and Conversational Shopping, Rajiv Mehta, joins Bloomberg Intelligence to discuss Rufus, the company's AI shopping assistant that ...

The way we navigate the web is changing, and it's paving the way to a more AI-saturated future.

AI chatbots consolidate everything into a single response. We have no idea where that information comes from, how it's prioritized or who's making those decisions.
