
Batteries in the wind-solar hybrid room of a solar container communication station

Batteries Batteries is an international, peer-reviewed, open access journal on battery technology and materials published monthly online by MDPI. The International Society for Porous Media ...

The global shift towards sustainability is driving the electrification of transportation and the adoption of clean energy storage solutions, moving away from internal combustion engines. ...

The rising demand for sustainable energy storage has fueled the development of green batteries as alternatives to conventional systems. However, a major research gap lies in ...

Based on data gathered from completed and ongoing electric and hybrid aircraft projects, this study deals with the suitability of many different types of lithium-based batteries ...

Anode-less sodium metal batteries have drawn dramatic attention owing to their high specific energy and low cost. However, the growth of sodium dendrites and the resulting ...

Batteries being the premier open-access journal for the battery community fulfils a crucial role in disseminating important breakthroughs to relevant stakeholders. Congratulations ...

All articles published in Batteries (ISSN 2313-0105) are published in full open access. An article processing charge (APC) of CHF 2700 (Swiss francs) applies to papers accepted after peer ...
