## Battery cabinet power cord

How do I connect a battery cabinet to an ups?

Connect the DC+and DC- cables to the DC+and DC- terminals. Connect the power cables in the UPS. If more battery cabinets are part of the solution,connect all battery cabinets to the UPS according to the diagram below.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinetsare available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

Do I need a pull box with a Battery breaker?

NOTE: If the combined short circuit current of the battery cabinets exceeds the short circuit rating of the UPS, a pull box with fuses or an external box with a battery breaker must be installed. Please contact Schneider Electric for more information and refer to the submittal drawings for your specific UPS.

What battery sizes are available?

Standard sizes are available in 32 and 40battery configurations to fit multiple battery sizes from a wide range of manufacturers including NorthStar Battery,East Penn (Deka),EnerSys and C&D Technologies,or we can customize a battery cabinet to fit your specific needs.
