
Factory price incomer breaker in Australia

Are circuit breakers safe in Australia?

Yes, all our circuit breakers comply with Australian standards, including AS/NZS 3000:2018, ensuring they meet the necessary safety and performance requirements for electrical installations in Australia. Can I use these circuit breakers in a caravan or RV? Absolutely.

What are nhp circuit breakers?

NHP's range of circuit breakers features a complete range of quality products for the protection of an electrical installation against overcurrent's and short circuits in industrial, commercial, and domestic applications.

What are the different types of circuit breakers?

The range of circuit breakers includes air circuit breakers (ACBs), moulded case circuit breakers (MCCBs) and miniature circuit breakers (MCBs). Earth leakage relays detect ground faults and abnormal leakage currents. These protective measures ensure circuit integrity, prevent equipment failure, and enhance overall electrical system safety.

What does a circuit breaker do?

A circuit breaker is a safety device designed to protect an electrical circuit from damage caused by overcurrent or short circuits. It automatically interrupts the flow of electricity when a fault is detected, preventing potential hazards like fires or equipment damage. Are your circuit breakers compliant with Australian standards?

Shop circuit breakers online - Clipsal MAX9, Hager, NLS & Heinemann. Single, two & three pole breakers. Fast delivery Australia-wide.
