
Generators for outdoor power

Can a portable generator be run outside?

Portable generators, which are gas-powered, must be run outside. A portable home generator can be a big help when the electricity goes out. They are not large enough to power everything in a house, but they can supply power to a few critical appliances, such as a refrigerator and lights.

What is the best portable generator for power outages?

The ds10000eh from DuroStar is one of the best portable generators you can have for power outages. It comes with a DuroStar highly powerful 439cc OHV engine and provides up to 8,000 running watts.

What appliances can a portable generator power?

The smallest wattage generators can power appliances with minimal power draw. Larger units can power HVAC, refrigerators, lights, and appliances. Will you be running an extension cord from the portable generator to power a few appliances, or will you install a transfer switch and outside receptacle in your home?

How to install an outdoor generator?

Buy an appropriate weatherproof outdoor generator plug and install the plug on the exterior of your home. In addition to the normal electrical tools (screwdrivers, pliers, wrenches, electrical tape, drill, etc.), make sure you have a good set of work gloves and protective eyewear. Working with wiring and electricity is no joke! 4.
