
Sloped roof glass solar shed

I am wondering if one could, for instance, extrude a rigid insulation wedge (flat on top, sloped along deck below) to fill the space between a much shallower, modified "flat" roof ...

Curved wall where Top face is sloped Need the ability to create a curved wall with the top face sloping. An idea on how these might work for an end user is to select your wall ...

It's an old building with a sloped floor. My intention is to use a layer of underfloor heating with screed to correct this. So that at the end, the top of the floor will be flat. However, ...

Hi guys, I'm designing sloped pipes and I make sure all my pipes have a slope of 0.5%. All goes well, but after a while when I go back to check on my previous work I notice ...

Hello all, I have a floor and I want to keep the bottom level as it is and create a slope in the upper level. From 40cm thickness that I have at the edges I want to have 60cm ...

I am trying to create a sloped floor that can be edited. I need the underside to be a single plane but the top edited to various heights. Any idea how I can do this? Thanks Eyal

Hi everyone. I have been trying to cut a regular architectural vertical column with some incline in the top but haven't succeed yet. I have tried to cut the top to a reference plane ...
