Solar panel monitoring supporting manufacturers

What are the best solar monitoring solutions?
There are several solutions for solar monitoring provided by companies that don't make solar equipment or install solar panels. These solutions from companies like Sense, Curb, and Emporia have additional features that allow you to monitor energy usage in a much more granular way than solar-specific monitoring does.

Which solar installers offer monitoring software?
There are a few nationwide solar installers that offer monitoring software,but these are mostly re-skinned versions of equipment manufacturer offerings. Other nationwide installers offer web portals with day-after data,but no real-time monitoring. The one that stands apart from the others is Tesla.

What is a solar monitoring system?
Solar monitoring systems provide a real-time snapshot of solar energy production data from your home solar system. A good monitoring system can tell you when one or more panels (aka "modules") isn't producing as much energy as others,or whether there's some sort of electrical fault causing you to miss out on precious kilowatt-hours (kWh).
