
Solar replacement tiles

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Should I replace my roof with solar tiles?

Firstly, if you don't want to replace your whole roof then solar tiles aren't the option for you. And, even if you are replacing your roof, not all homes are suitable for a solar roof as the pitch and angle must be ideal for the tiles; they cannot be angled and adjusted like traditional solar panels.

What is a GoodWe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

Can solar tiles be replaced?

Solar tiles can replace slates, plain tiles and interlocking tiles. Ground mounted system if the roof doesn't work. Another ground mount system. This one is hidden from the house by a 'Ha ha'. If in 8 - 12 years you decide you don't like them you could always take them off. (These rails and mounting hooks can easily be removed by a qualified roofer)
