# What is the latest energy storage policy in Barbados

What is the Barbados national energy policy (BNEP)?

This Barbados National Energy Policy (BNEP) document is designed to achieve the 100% renewable energy and carbon neutral island- state transformational goals by 2030. These include: Provision of reliable, safe, affordable, sustainable, modern and climate friendly energy services to all residents and visitors.

Should Barbados invest in fossil fuels offshore?

However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore. This patrimony will be pursued aggressively with the view to maximise foreign exchange gains from the export of any exploited hydrocarbons.

Does Barbados need a BNEP?

The BNEP provides a basis for building on these successes while seeking to expand the use of these and other renewable energy technologies such as wind and biofuels. However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore.

Why is solar water heating so popular in Barbados?

Indeed, the success of the solar water heating industry is a source of pride for the country, the recent development of the local solar photovoltaic (PV) industry and the burgeoning electric vehicle market in Barbados are also encouraging.

Barbados is moving forward quickly with its battery energy storage plans, attracting strong investor interest and setting a bold example for energy transformation in the Caribbean.

Barbados is soon to launch its first project for the installation of Battery Energy Storage System. This will support the electricity grid and will allow the stalled solar photo voltaic (PV) systems to proceed.

Get the latest news on Barbados's 200 MW battery storage tender. Learn how BLPC's project will integrate renewable energy, stabilize the grid, and help meet 2030 climate goals.

BRIDGETOWN, Barbados, CMC - Barbados has launched the second phase of the competitive procurement process for Battery Energy Storage Systems (BESS), which ...

The storage policy should be finalized including the time-of-use rates, storage FiT programs, procurement methods, and stacked services regulations to support the growth of ...

This Barbados National Energy Policy (BNEP) document is designed to achieve the 100% renewable energy and carbon neutral island- state transformational goals by 2030. ...

Looking Ahead The BESS procurement marks a critical step toward achieving Barbados'
