
Yemen solar Energy Storage and Distribution

Will solar power boost power in Yemen?

UAE-based Global South Utilities, an energy and water infrastructure company, is boosting its solar power generation capacity in Yemen to provide electricity to thousands of homes amid growing power challenges in the country.

Can solar power Yemen's Ataq city?

Photo: Global South Utilities UAE-based Global South Utilities inaugurated a 53-megawatt solar project in Yemen to power 330,000 households, significantly enhancing local electricity access. Electricity from the plant will "fully meet" the needs of Ataq City and six surrounding districts.

How does Yemen's energy crisis affect the economy?

The company is also doubling capacity at its Aden Solar PV Plant to 240 megawatts, enhancing Yemen's energy security and reducing reliance on imported fuel. Yemen's ongoing electricity crisis has led to prolonged blackouts, heavily impacting essential services and quality of life.

Is Yemen an energy exporter?

Yemen is net energy exporter. Primary energy use in Yemen was 87 TWh and 4 TWh/million people in 2008 and 88 TWh (4 TWh/M) in 2009. According to the World Bank, Yemen has the lowest level of electricity connection in the Middle East, with only 40% of the population having access to electricity. Rural areas are particularly badly affected.
